

# Learning to Read with

# Read Write Inc.

# Phonics

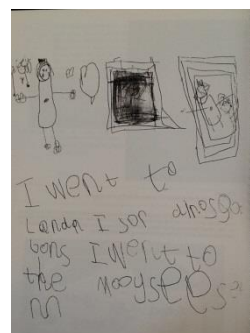

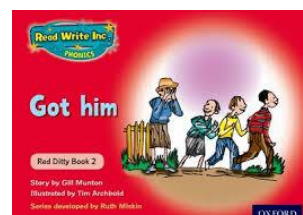

Learning to read and write should be fun, exciting, active and meaningful. At Leighswood your child will be taught sounds for reading in short, fun, daily lessons. With the help of 'Fred the Frog,' they will learn to blend these sounds to read simple words.

Throughout Reception your child will read exciting storybooks matched to their developing knowledge which they can share with you at home.

Daily lessons will also teach your child how to write individual letters and how to break down words into sounds for writing. They will then be given the skills to remember and write down simple sentences.

Not only will your child learn to read and write in a fun and stimulating way but their language, listening and co-operations skills will also be developed as RWI. focuses heavily on partner work.
